Sri Chaitanya, Vijayawada
Percentage – 87%
- 2016, B.Tech.(Electronic and
Communication Engineering)
Rajiv memorial Gandhi Memorial

CAREER OBJECTIVE

To achieve the topmost level in an organization by hard work and dedication hence develop a long-term relationship with the organization.

EXPERIENCE

Careator Technologies (April 2021 – Till Date)

1. E-COMMERCE SHOPPING APP

TECHNOLOGIES: REACT JS, NODE JS, NEST JS, MYSQL.

In this project, we built a mini e-commerce application wherein the product list will be displayed to the user. The user can add the products from the listing to the cart and go ahead and place order for same. I was involved in designing front end components and back-end APIs for the application.

2. EMPLOYEE ONBOARDING

TECHNOLOGIES: REACT JS, NODE JS, NEST JS, MYSQL.

In this project, we are building an application for HR to onboard the employees who have been selected after interviews. This application involves workflow starting from candidate creation, document upload by candidate till final offer letter is released to the candidate. I was involved in designing mock-up UIs, front end components and back-end APIs for the application.

OTHER PROJECTS

1) Sending Mail with Files

Technologies: nodejs and expressjs

In this project, I tried to send mail using Nodemailer with files using Multer

2) WhatsApp Clone

Technologies: Html, CSS, Reactjs, Redux, Material-ui, Firebase
Created WhatsApp UI design and storing messages in firebase

3) Slack Clone

Technologies: Html, Css, Reactjs and Firebase
Created WhatsApp UI design and storing messages in firebase

TRAINING

- Undergone corporate training at Careator Technologies on Skills such as React Js, Node Js, Nest Js, MySQL.
